

MUHAMMAD SAMIULLAH KHAN

MERN / FULL-STACK DEVELOPER

Lahore, Pakistan

0306-0042323 | [Email](#) | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

MERN Stack Developer with more than a year of hands-on experience developing responsive business websites and full-stack web applications. Experienced in architecting RESTful APIs, designing dynamic React UIs, and building scalable backends with Node.js, Express, and MongoDB. Excellent grasp of deployment pipelines and frontend optimization. Known for clean, maintainable code and delivering results under tight deadlines.

TECH STACK

Frontend: React.js, Next.js, Redux Toolkit, Context API, Tailwind/Bootstrap CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose

Tools: Git, GitHub, Postman, VS Code

Cloud / Deployments: Vercel, Render, Heroku

Other Skills: JWT Authentication, Form Validation, Responsive Design, API Integration

EXPERIENCE

Full-Stack Intern Developer (Onsite)

Tech Storm— MULTAN, Pakistan

Aug 2024 – Jan 2025

- Built and deployed several responsive websites for local clients using React, Node.js, and MongoDB.
- Implemented secure authentication using JWT and role-based access control.
- Created RESTful APIs for product management, orders, and contact forms.
- Assisted senior developers in debugging, deployment, and Git workflows.

Junior MERN / Full-Stack Developer (Remote)

Remote / Freelance

Feb 2025 – Sep 2025

- Developed and maintained client dashboards and authentication modules using Next.js and Express.js.

- Integrated MongoDB aggregation pipelines to support analytics and reporting features.
- Optimized API response times by caching and query restructuring, improving load speed by 30%.

EDUCATION

Bachelors of science in computer science (2024) - - Virtual University of Pakistan

KEY ACHIEVEMENTS

- Delivered 5+ full-stack projects from concept to deployment for both local and remote clients.
- Improved API performance by 30% through query optimization and caching.
- Recognized by mentors for writing clean, modular, and reusable React components.
