Work Experience

I am a self-taught full-stack web developer with a passion for learning and adapting to new technologies. I have completed a coding bootcamp and have gained practical experience through self-study and hands-on projects. My projects include a modern Ecommerce application and a Blog application. I have experience with HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, Git,. I am now looking for my junior tech position and am confident in my abilities to contribute to a team. Check out my GitHub for more details on my projects..

Summery

As a MERN stack web developer, I'm seeking an junior-level job in an energetic company. I'm committed to improving my abilities and staying current with new technologies to help create groundbreaking software solutions.
