Muhammad Samiullah khan

Intern - MERN-Stack developer

Lahore, Pakistan

(+92) 3342323004   samikhan7816@gmail.com

Work Experience

Motivated and self-taught MERN Stack Developer with one year plus hands-on learning experience, I've become proficient in the whole development ecosystem, including MongoDB for database management, Express.js for solid server-side architecture, React for dynamic and interactive user interfaces, and Node.js for fast backend development. Through hands-on projects, I've developed my abilities in developing end-to-end web applications, integrating RESTful APIs, and guaranteeing smooth communication between server and client. My dedication to staying up to date on developing technologies, as well as my collaborative mindset, make me an excellent contributor to creative and scalable online solutions

Summery

As an MERN stack web developer, seeking a internship or junior position in a dynamic organization. Committed to continuously improving skills and staying up-todate with the latest technologies in order to contribute to the development of dynamic software solutions.

Projects
